TESTIMONIAL:

*"In the first week, we learned how to do business through creative workshops - **It was great!** In the second week we were challenged with real business **cases in successful companies**. I felt that the group was in a particularly **creative and resourceful mood** at all times, resulting in **magnificent ideas** that otherwise may never have been unearthed. The afternoons and weekends were reserved to visit some of **Slovenia's landmarks**."*

Now, 2 years later, I still look back to that period as having been a significant course changer of who I am and what I do today."
